Capt. W. N. McKanay of Caihandon, Mexico, has been in the caty for some time, and feaves to day for his home there. "How do you stand on Blaine's proposed reciprocity with Mexico."

"I am decidedly in favor of it, or of anybody else's reciprocity that will give us better trade relations with a country so rich in natural resources and needing so many of the products of our farms and shops, it strikes me that the government of the United States has been blind long remember to the interests of our recover, and enough to the interests of our people, and that the importance of the trade of 11,000, 000 of our neighbors should not be longer oon of our neighbors should not be longer overlooked. We have as good variety of haid as any of them, as well off in health, morals, education and general natural advantages, but pies have talls, men and women get old, houses and horses wear out, and all this, here good Terrell.
